

EbA Facility Project Fact Sheet

MARCH 2022

GRENADA

Project Title

Building Community Resilience and Ecosystem Based Adaptation to Climate Change in Selected Communities along the West Coast in Grenada.

Beneficiaries

Fisher folk and coastal communities in Western Grenada.

Partner Organizations

01. Gouyave Fishermen Cooperative Society Limited (GFCSL)
02. Grenada Fisheries Division, MPA Unit
03. St. Mark's Organization for Development (SMOD)

Project Summary

The project will expand the coral nursery program within the Gouyave Marine Protected Area through a community-based approach which will see volunteers trained to restore degraded reefs within the MPA through design, building and deploying artificial reef structures on which coral can be propagated by out planting of coral nursery stock.

An additional focus is restoration activity in the riparian zone among rivers of three target watersheds that flow into the Gouyave MPA by first conducting assessments of the status of these zones and pollution threats.

Capacity for long term protection of the Gouyave MPA will be increased with an update of the habitat assessment and management plan for the area. This will be complemented by the development of an office space for enhanced management of the MPA and facilitating participation of communities such as engagement of fishermen in training on environmental best practices and seamanship.

GRENCODA

EbA Facility Project Fact Sheet

MARCH 2022

Principal EbA Measure(s) Used

01. Protection and restoration of marine and terrestrial ecosystems and habitats. Ridge to reef approach improving ecosystem resilience of coral reefs, seagrass beds, and the riparian zone.
02. Enhancing ecosystem services such as coastal protection, food security and livelihoods based on rehabilitated marine habitats. Increasing capacity, knowledge and participation of local communities in protection and restoration of critical habitats.

Ecosystem(s) Targeted

Marine - Coral Reefs, Terrestrial - Riparian Zones.

Project Duration

Duration:	36 Months
Starting:	January 2020
Closing:	January 2023

Funding

Total (USD):	\$1,021,274.60
EbA Facility:	\$791,274.60
Co-financing:	\$230,000.00
